- MySQL

## Achievements

2016 HackxFDU Hackathon, Shanghai, China

Enterprise Award - Entrepreneurial potential award

- ✓ Leading the team and dividing team tasks / Back-end development
- ✓ Brainstorm and develop prototype in 36 hours. Based on LBS and we combined "bury and dig stories" with social interaction. Except the innovation model, the application of online-to-offline commerce was the main reason why we won the award

2016 Taiwan College Hackathon, Yunlin, Taiwan

Jury Prize(Champion) and Best Popularity Award

- ✓ Idea brainstorming / Full-stack development
- ✓ Combine the masses interaction with local agricultural culture elements and design a lighting rice which allowed people to bend over and make a wish to the dark rice and then the rice will be lightened up and show their wishes

2016 Tencent Startup Salad Taipei, Taiwan

Champion and Best Popularity Award

- ✓ Idea brainstorming / Proposal writing / Back-end development
- ✓ Brainstorm and develop prototype in 52 hours. Invent and design an interesting model to increase the fun of jogging and gaining the favor of judges and contestants
